## About Titan Teacher Training

Titan Teacher Training has successfully trained teachers for over 20 years. We work in partnership with Primary and Secondary schools across Birmingham's inner city to deliver outstanding and supportive school based Teacher Training. Our course offers Qualified Teacher Status (QTS) and a Post Graduate Certificate in Education (PGCE) with Master's credits. The PGCE qualification is validated by Birmingham City University. To support your academic work you have access to the university's facilities and services.

Titan is a small but highly successful provider. Our size enables us to deliver personalised training in a very supportive environment. Many of our trainees choose to remain within our partnership schools and go onto become strong middle and senior leaders. As part of our ongoing commitment to you we also offer a comprehensive programme to support you through your NQT year.

As a trainee you will also have access to events & activities from our wider partnership network of over 50 educational institutions across Birmingham. We provide all our trainees with the best possible support to ensure success at every level.

We look forward to *supporting you* into teaching!

## About Your Course

Our SCITT programme is a 36 week, full time school-led course that leads to QTS and a PGCE with Master's credits.

Your training year is split into 2 placements of equal length (Sep-Feb & Feb-Jul) this will give you a balance of experience across 2 contrasting school settings.

You will also have the option of an additional placement focussing on SEN, Alternative Provision or STEM.

After your induction week, you will be based in school Monday-Friday. On a Tuesday morning you will attend cross-phase taught sessions at our Learning Hub. These sessions are designed to give you an understanding of the elements of your professional role that lie outside of the national curriculum. These sessions are delivered by a range of speakers who are experts in their field.

Study support sessions will be held to assist with the academic requirements of the course.

You will also attend subject specific twilight taught sessions to assist you with planning, assessing and delivering the national curriculum.

As this is a school-led programme, you will spend the majority of your time in school learning from excellent practitioners. You will start by observing good practice in your placement school before starting to team teach alongside your designated school based trainer. You will then have the opportunity to deliver solo lessons before you begin your assessed teaching practice on a 50% timetable. During your school placements you will be supported by your School Based Trainer (SBT) and a Professional Tutor (PT). You will have a weekly one-to-one with your SBT and regular meetings with your PT in order to review progress against the Teachers' Standards. In addition to this, you are also supported by a Subject Leader and our team of Titan ITT experts.

You will also find a number of ex-trainees in your placement schools, many of whom are in senior leadership roles, these too will prove a valuable source of guidance and support. QTS is assessed by your classroom practice, a portfolio of evidence against the Teachers' Standards and a reflective practice folder.

The PGCE is assessed through 3 assignments.

This is a demanding, and highly rewarding, course and we look forward to **supporting you into teaching.**

**"Titan is an outstanding place to complete your teacher training, not only do you work alongside experienced practitioners, it offers a personal approach that larger providers just can't provide"**

Jake Shellis - Trainee (PE)

## How School Placements Work

Our partnership of schools are based in the North West of Birmingham with good public transport links.

Due to our small numbers we are able to personalise your training experience, allowing us to select the school which would provide the right training environment for you.

The SCITT programme runs a 2 placement model designed to give you an equal experience of 2 contrasting school settings.

- Placement 1 runs from September-February, during this time you will be in school Monday-Friday and at our Learning Hub on Tuesday mornings.
- Placement 2 runs from February to July with an increased teaching timetable resulting in you being in school Monday-Friday.

## The Interview Process

Following your successful application, you will be invited to join us for an interview. Currently all of our interviews are taking place virtually using Zoom. As part of our interview process you will take part in:

- A 10 minute presentation
- A 40 minute formal interview
- A 40 minute subject knowledge test
- A 20 minute short reflective written task.

**“Titan helped me realise that life experience was invaluable and having a lack of experience in the classroom, should not and did not hold me back”**

**Uzma Aziz - Trainee (English)**

## Fees & Financial Support

The course fees for 2021/2022 are £9,250

You can apply for a student loan from the Student Loans Company.

You are entitled to a DfE funded training bursary if you have a Degree (First, 2:1 or 2:2), a Master's or a PHD qualification.

<b>Subject</b>	<b>Bursary</b>	<b>Scholarship</b>
Chemistry	£24,000	£26,000
Computing	£24,000	£26,000
Maths	£24,000	£26,000
Physics	£24,000	£26,000
MFL (French)	£10,000	-
Biology	£7,000	-

Titan offers a hardship fund should you require additional financial support. You will receive details on how to access this funding during induction week.

**“A truly tailor made experience, where you don't feel like just another number, but a person with goals and a story. I felt supported in all aspects of the course”**

Piotr Skibinaki - Trainee (Design & Technology)

## Entry Requirements

### Qualifications

- A Degree
- GCSE English Grade C/4 or above
- GCSE Maths Grade C/4 or above
- GCSE Science Grade C/4 or above (Primary only)

Overseas qualifications will need to be confirmed by UK NARIC.

If you do not have the required GCSE qualifications you can still apply but you must have passed the necessary equivalency tests prior to starting the course.
